

No U.S. Money for Israeli War Crimes

Shame on Senator Murphy Shame on Senator Blumenthal

Both Connecticut Senators voted to give the Israeli government a “blank check” for its rampage in Gaza, wiping out whole families, shelling hospitals, shooting ambulances, and killing hundreds of children. National news said Israeli forces are killing one child an hour. Yet your senators voted for Sen. Res. #498 to approve Israeli actions and they vote every year for massive gifts of our taxes to the Israeli army.

The heart of the problem is not “rockets” or “terrorism”, but the desire of the Israeli government to drive all Palestinians out of their homeland and to create a Jewish superiority state. By sending money and guns to Israel we in the U.S. support this awful project.

every year U.S. government gives BILLIONS in military and economic aid to Israel

every year U.S. government gives BILLIONS in military and economic aid to Israel
